**Trinity Transport, Inc. Celebrates It's 30<sup>th</sup> Year**

**Seaford, Delaware, December 23, 2008** –In 2009, Trinity Transport, Inc. celebrates its 30th anniversary, and has recently unveiled its corporate emblem to commemorate the occasion. The road moving through the number “30” alludes to their overall corporate theme for the year, “Advancing Excellence”. As one team member remarks, “There’s no telling where the road ahead may take us, but as a team we’re committed to keeping our eyes on the road, focused on future goals ahead.”

Trinity’s award winning team eagerly looks forward to the next 30 years of success, continually building on their rich history while providing an ever higher level of service to customers and carriers. “What sets Trinity apart from the other thousands of brokers is this commitment from a team to never settle for less than excellence”, said Jeff Banning, President, CTB. “When it comes to serving customers, carriers, or fellow peers, our tradition is to strive for excellence. In 2009, we plan to take it up another notch and continue moving forward, advancing to the next level.”

As part of its commitment to increased service, Trinity began offering select clients the opportunity to use its new Transportation Management Software, and will be offering the program on a larger scale by the second quarter of 2009. The new software will allow Trinity to service the full scope of our customers’ logistic needs as a true 3PL provider. The system has several core functionalities, which include the ability to manage the movement of freight across all modes, optimize shipments across all customers to create continuous moves, freight tendering, tracking/tracing loads, customer/carrier invoicing, and detailed carrier performance. For more information on the TMS, contact Chris McAvoy at (800)-707-7910.

**About Trinity Transport, Inc.**

Founded in 1979, Trinity is an award winning third party logistics provider. The corporation is made up of 65 offices across the United States and Canada, and is consistently ranked in the Top 20 of third party logistics providers nationwide. Trinity provides logistics solutions including but not limited to brokerage of truckload and less-than-truckload shipments, transportation management software, international transportation services, and intermodal solutions to its customers. Trinity is known for its status as the top ranking on The News Journal’s “Best in Business” in the Medium Sized Category for 2007 among other awards.
